TODAY BRINGS YOU A BIG SPECIAL COUPON

Look For It—Can be Voted for Any Contestant in Any District—That is Open to All.

This issue contains our big Wednesday special coupon—worth 500 votes. Look for it.

Marvelous! Yes, that's it. No other word could define the interest already manifested in The Gazette's grand voting contest.
Those who have been watching this even for the past two weeks and seeing how it is progressing can not help but notice the keen interest that is being taken in it everywhere. Reports come from all over Rock and surrounding territory that the candidates are doing all in their power to elicit the aid of their friends and it may be said to be a contest of the kind that the ones who will win one of the twelve prizes.

Just to add a little more fire and dash to this great contest today's issue of The Gazette contains a "Wednesday Special" coupon, worth 500 votes.

These 500 special votes must be voted separately from nomination ballots—ballots or ten vote coupons, and must be in the ballot box on or before Tuesday, August 3.

Each contestant in all the three districts, both city and county, will be given credit at the rate of one vote for each and every one of these coupons voted bearing his name.

No extra copies of this issue have been placed on sale at this office, but five hundred samples have been distributed in Janesville.

As it is impossible to sample every vicinity of the county equally, no samples have been sent out of this city. This makes the conditions equal for all contestants in districts 1, 2 and 3—but remember—these special votes can be voted for any contestant in any district.

In many contests the grand prizes are won by a margin of few ballots, or even less, consequently those that are wise will take advantage of this great offer and make it by.

Some misunderstanding seems to exist concerning the coupon worth 500 votes that appears daily in The Gazette. These coupons must be in the ballot box on or before the date printed on them, or if enclosed in an envelope and sent by mail, the envelope must bear postmark not later than the given date on the coupon. This date changes every ten days and those bearing the date of August 4th, must be in under these conditions.

Young ladies, this exceptional offer comes only once in a life time. It is extended to you by The Gazette, they have done their part. Think twice before passing it by. Take pencil and paper and figure how long it will take you to save enough money to purchase that elegant piano or diamond ring. Or, if your parents can afford to buy you one, be independent, show them that you can win—you can—it's up to you.

Do not let the days slip by, and think you will get a bunch of subscriptions and votes the next week, but hustle today, right now, and see how many votes you can get.

Plans on Display.
One of our beautiful Newman Bros. pianos, three of which have been purchased by Mr. H. P. Nutt, is now on display in the furniture and china store of C. S. Putnam on S. Main St. All of our contestants and their friends are invited to call and inspect the piano any time.

Open Evenings.
For the benefit of those who cannot call during business hours this office and contest department will be open every evening until 8 o'clock.

Subscription Books.
Contestants and their friends are privileged to accept payments on subscriptions and in order that they may receipt for such payments we will provide them with a receipt book. If they will inform the Contest Department.

YOUNG HARPER BOY HURT ACCIDENTALLY

Ten-year-old Son of Mr. and Mrs. J. L. Harper Had Large Ankle Bone Broken.
Everett Harper, the ten-year-old son of Mr. and Mrs. J. L. Harper, 121 Jackson street, fractured one of his ankles Saturday morning and his foot may be injured for life as a result of the accident. At any rate it will be many weeks before he will be able to use it again. Young Harper was playing around his home and had climbed onto a neighbor's fence. In attempting to leap to the ground his clothes caught on one of the pickets, jerking him into one of his ankles. The large bone of his leg was left suspended from the picket. He attempted to free himself, but was unable to do so, but his cries for relief were heard by his playmates who came and released him. Drs. Penber and Loomis were called and succeeded in reducing the fracture but the injury gives the young man considerable pain, yet.

An Afternoon Tea.
At her afternoon tea Mrs. Taft serves sandwiches instead of cake, and the table is in the red room. About 25 guests are asked each day to take tea with Mrs. Taft. The invitations being over the telephone. While the guests are arriving a friend pours the tea, but is afterward relieved by Mrs. Taft, who pours and passes sandwiches and makes the occasion a delightfully informal one.

EMERALD GROVE MAN IS GIVEN HIGH PLACE

Professor Boynton, Now of Kansas, Son of Mr. and Mrs. J. T. Boynton, Appointed to U. S. Census Board.
[SPECIAL TO THE GAZETTE.]
Emerald Grove, July 26.—Professor Arthur J. Boynton of the University of Kansas spent Friday with his parents, Mr. and Mrs. Jerome T. Boynton, of Washington, D. C., where he has been called on a special agent for the census bureau. An advisory board of economists and statisticians has been created to assist at Washington in revising the schedules and instructions to agents for the new census of 1910, hoping that a more scientific census will result. Mr. Boynton will serve as a member of this board.

Dr. and Mrs. Smith of Beloit were visiting relatives here last week. Mrs. Mary Scott and Mrs. Alice Inman of Clinton were welcome visitors in our community last week.

There will not be church services here for a few weeks as Rev. Davidson will take a vacation.

Remember the tea given social at D. E. Jones' on Thursday evening of this week. Ladies are requested to bring cake.

Mary Davidson returned home on Monday having spent about two weeks with her sister at Crystal Lake. Flora Belle Jones and Ora Paul spent their birthdays together last Sunday at the home of the latter.

ALCOHOL IS A PRESERVATIVE.
Alcohol is recognized the world over as the proper, most efficient and wholesome preserver of medicinal compounds, and while some journalists try to alarm the world by the cry that patent "cure-alls" contain more alcohol than beer, they neglect to state that proprietary medicines are taken in doses from a teaspoonful to a tablespoonful, while beer is a beverage that is consumed in quantities from a glass to several quarts a day.
Lydia E. Pinkham's Vegetable Compound contains only 18% alcohol, simply enough to preserve the roots and herbs, from which it is made, and may be relied upon by every woman in the land as a reliable, honest and sure remedy for the ills peculiar to her sex.

It's worth something to be able to place your work where you can rely upon the thoroughness of the workman.

ORVILLE WRIGHT IS "KING OF THE AIR"

DAYTON AVIATOR SETS NEW
RECORD FOR ACROPLANE
ENDURANCE.

PRESIDENT SEES THE FLIGHT

Orville Files Double the Distance
Across the English Channel While
Hubert Latham Is Falling into the
Water Near Dover.

Washington, July 28.—Flying 50 miles, which is double the distance across the English channel, Orville Wright, the American "king of the air," last evening at Port Myer broke the aeroplane endurance record, with 14 out, Frank P. Lahm as a passenger. The machine was in the air one hour, 12 minutes and 40 seconds.

The former record was made last year by his brother, Wilbur, joint inventor with him of the machine in which both achievements were performed, at Le Mans, France, with Prof. Painleve of the French Institute as passenger. That flight was one hour, nine minutes and 31 seconds.

Taft Leads in Cheering.
The cheering which heralded the setting of a new mark in the conquest of the air was led by President Taft in person, who was an intensely interested spectator throughout the flight, and who insisted at its conclusion upon personally congratulating the brothers upon their success. This success was all-important to the Wrights in that it completed the first of two crucial tests of their machine imposed upon them by the United States government—the so-called "endurance test," which required them to remain one hour continuously in the air with one passenger.

The other test, that for speed, will be completed with today, weather permitting, when Orville is to take Lieut. Benjamin Foulois of the signal corps on a cross-country flight to Alexandria and return, a total of ten miles, over a measured course, and at a speed required to average 40 miles an hour.

"Bully," Says His Sister.
Miss Katherine Wright, who nursed her brother through the period of his recovery from the disaster last fall, anxiously watched him from the doorway of the shed where the aeroplane is kept, and when he returned unhurt from his flight greeted him eagerly by the arm, nestled her face against his breast and said:

"Bully for you, brother. It was beautiful."

It is a question whether this word of praise was not more to him than that which came a few minutes later when the president of the United States, who had waited for him at the other end of the great parade ground, took him warmly by the hand and said, with the other grasping that of his brother Wilbur: "I congratulate you heartily, sir. It was a great exhibition. You came down as easily and gracefully as you went up. You beat the world's record."

Latham Falls Into Channel.

Dover, England, July 28.—Hubert Latham's second attempt to fly across the English channel ended disastrously. Almost in the moment of victory his monoplane fluttered down into the sea two miles beyond the Admiralty pier, like a bird with a broken wing. Thousands of persons crowding the water front saw the fall and for nearly half an hour they were kept in suspense, not knowing whether the daring aeronaut had met death or again had been rescued from the water.

A flock of large and small craft raced to the scene of the disaster, and a plume from the British battleship Russell picked up the unlucky flyer and put him aboard the French torpedo boat destroyer Iaconotte. After a surgeon had attended to his injuries the destroyer brought Latham ashore and he was taken to the Lord Warden hotel. His face was bandaged and bleeding and his nose was broken.

The machine, badly wrecked, was hoisted from the boat to the dock.

KENOSHA MOLDERS STRIKE.

Politics Blamed for New Labor
Trouble in Wisconsin City.

Kenosha, Wis., July 28.—The labor troubles in Kenosha were reopened when 275 men in the foundry of the Simmons Manufacturing Company went out on a strike demanding an increase of wages and a readjustment of the wage scale. In connection with the strike it is declared that efforts are being made to create a feeling of unrest among other factory workers in the city among the foreigners and that the plan of the socialistic agitators who have been active is to force a general strike among these people. Agitators were at work trying to get the employees at the N. R. Allen's Sons tannery to go out again, but the men remained at work.

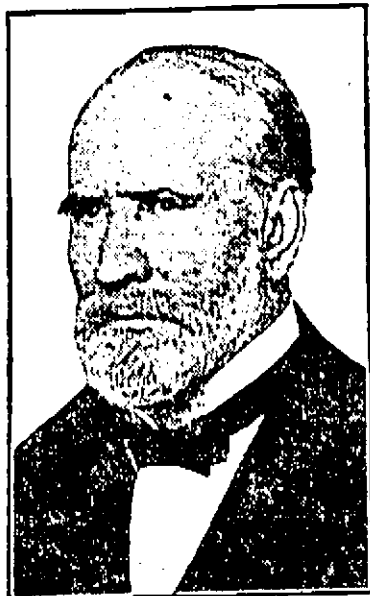

Judge L. D. Stringer Rallies.
Muscatine, Ia., July 28.—The condition of Lawrence D. Stringer of Lincoln, Ill., presiding judge of the Illinois court of claims and recently Democratic candidate for the United States senate, who is ill at a hotel here, was slightly improved. He is suffering from an acute attack of intestinal trouble.

Secretary Dickinson's Son Ill.
Nashville, Tenn., July 28.—J. M. Dickinson, secretary of war, was summoned from Washington to the bedside of his son, Capt. Overton Dickinson, who is critically ill of acute congestion of the lungs.

EXPECT WILSON TO RESIGN.

Report Says Latham Will Quit Taft
Cabinet in January.

Washington, July 28.—That the Taft official family will begin about January to be rounded into its permanent form and membership is the opinion entertained now. It is strongly believed by those who have looked into the situation of late that there will be

Secretary Wilson.

one change in the cabinet about the turn of the year, which will take out of that body the veteran, Secretary Wilson.

He has been a cabinet member longer than any other man ever was in this country—longer, indeed, it is said than anybody ever was continuously in a responsible government. With his retirement, Mr. Meyer of the navy will be the only remaining representative of the Roosevelt cabinet.

MISSOURI SENATOR ARRESTED.

W. J. Stone Slaps Negro Walter on
Train at Baltimore.

Baltimore, Md., July 28.—Senator William J. Stone of Missouri was under arrest for a short time last night for slapping Lawrence J. Brown, a buffet car waiter, who had become insolent and refused to serve him. The senator was released on his own recognizance to appear in police court this afternoon at three o'clock.

HOUSE WINS STOCKING AND
GLOVE FIGHT IN TRADE
WITH SENATE.

PUT HIDES ON FREE LIST

Two Branches of Congress Make
Trades Which Promise to Put an
End to the Tariff War—No Duty
on Oil.

Washington, July 28.—The senate is to have its way in fixing the duty on lumber, print paper, iron ore and coal while the house wins its battle for free hides, free oil and increased rates on stockings and gloves. This, it is said, is the agreement reached by the tariff conference.

The rates on these schedules, as they have been tentatively arranged pending the acceptance by both houses of the program for a reduction in the duties on manufactures of leather below the rates fixed by the house, are: Oil, free. Hides, free. Coal, 45 cents a ton. Print paper, \$3.50 a ton. Iron ore 15 cents a ton.

Lumber, rough, \$1.50 per 1,000 feet; one side finished, \$2; two sides finished, \$2.25; three sides finished, \$2.50; which may include tonguing and grooving, \$2.62 1/2; four sides finished, \$3.

Duty on Gloves and Hosiery.

Gloves, four dollars a dozen pairs, not exceeding 14 inches in length, which is the standard length. Exceeding 14 inches, 35 cents per dozen is added for each inch. This rate does not apply to the Schmeichler, or cheap glove, on which the senate rate of \$1.25 per dozen pairs is retained. The latter rate is a reduction from the Dingley rates, but the house rates accepted on the higher grades of gloves represent heavy increases over existing duties.

Hosiery valued at one dollar or less per dozen pairs, 70 cents, as against the senate and existing rates of 50 cents. On values up to two dollars the rate is slightly in excess of existing duties, and a shading below the rates fixed by the house. On the highest grades the senate and house rates were identical.

President Taft last night put his O. K. upon the rates and the conferees are expected to formally accept them today. Senator Aldrich and Chairman Payne carried the schedules to the White House to get the presidential approval. Everything was clothed with the most complete secrecy, and nothing was vouchsafed at the White House concerning the president's attitude, but it was freely reported that the work of the conferees had received his approval.

Members Sworn to Secrecy.

Although now oaths of secrecy were taken by every member of the conference committee before the session was adjourned, it is well understood that the foregoing rates represent the understanding that has been reached on all of the subjects which engaged executive attention during the last few weeks.

The conferees met again at ten o'clock this morning to wind up their labors. Every member said that none of the five big questions which engaged the attention of President Taft had been closed.

After a session of 43 minutes the house yesterday adjourned until tomorrow, at which time it is expected that the resolution authorizing the tariff conference to reduce the rates on leather and leather goods below those of the Payne bill, will be brought in and acted upon.

Uncle Ezra Says.

"The chief reason why the tariff bug is such a success is because he keeps right at it."

NEBRASKANS SUPPORT TAFT.

Republicans Approve Tariff Policy—
Four Other Conventions Held.

Lincoln, Neb., July 28.—Of the five state conventions held in Lincoln yesterday chief interest centered in the platform of the Republicans, so far as it referred to the special session of congress. The resolutions came out strongly for downward revision; commend President Taft for the course he has taken in urging lower duties; call on the Nebraska delegation in congress to stand by him in his position, and approve the president's policies. The resolutions go further and the Republicans of Nebraska will approve a presidential veto of the tariff bill if it does not conform to Mr. Taft's construction of the platform pledge.

The significant feature of the Democratic convention was the plank in the platform strongly condemning interference by federal courts in state enactments. The resolution has reference to the recent decision of two federal judges sitting at Lincoln, in which they pronounced unconstitutional the bank deposit guarantee.

Only a small number attended the Prohibition convention. The Populists and Socialists also held conventions.

The Evening Chit-Chat

By RUTH CAMERON

WHEN I write a letter to anybody I like to know that I am writing to that person and to no one else.

It isn't because I write very sacred secrets. I got over that habit long ago.

It is simply on the same principle that I should not be pleased if I had been talking to some one and found that half a dozen people had been listening to my conversation from behind a screen.

While I might have said absolutely nothing that I would have minded having repeated to those people, I would have felt disappointed at being unwittlingly allowed to talk to an audience.

This may be a peculiar sensitiveness on my part but I rather fancy a good many people share the feeling and on that account it seems to me that the habit of reading letters out loud or of leaving them promiscuously around the house is a big breach of confidence.

Two or three times I have been of the confidence of visiting some one of my correspondents and finding my letters strewn around the house, sometimes fluttering about without even an envelope to guard their privacy.

Naturally, since then I have made it a practice to write letters that are as general and impersonal as they are uninteresting.

If you must read a letter aloud it is a positive duty to your correspondent to first read it over to yourself.

It may be that an experience I once had is partially accountable for my warmth on this subject.

I vary much this subject.

But before you condemn me for being unduly influenced, listen and see if you wouldn't be, too.

I once wrote a letter to a girl friend telling her about a little matter which I was not willing to have made public just then. I wrote in very much of a hurry and when I wrote in a hurry I must admit that I am a notoriously illegible penman.

The next week I got a letter saying:

"Isn't it lovely? Congratulations, etc., etc. I guess you must have been in a awful hurry when you wrote I simply could not read the last sentence. I showed the letter to every one in the family and to almost every one that came in, and they all read the first part of the letter—and send congratulations, my dear, but they simply could not read the last sentence."

With a feeling halfway between indignation and amusement, I recalled that last sentence:

"I have told you because I promised that you should be the first to know, but don't tell anyone else whatsoever."

JOLTS WISCONSIN EDUCATOR.

Tawney Replies to Magazine Article by Van Hise.

Washington, July 28.—Representative Tawney of Minnesota, in the house indignantly replied to a criticism of himself in a magazine article by Dr. Charles Richard Van Hise, president of the University of Wisconsin, regarding the policy of congress with respect to the conservation of the national resources.

Mr. Tawney declared that Dr. Van Hise assumed and falsely charged that the attitude of congress had been one of hostility toward this movement, "and invokes public condemnation upon myself for having proposed the amendment to the last sundry civil appropriation bill, which made it impossible for any officer of the government to pay any money for the expenses of any commission not authorized by law." He went on to state that, in addition to his work as president of the university, Dr. Van Hise for more than twenty-six years, or since 1882, had been an employee of the geological survey and during that time had drawn from appropriations made by congress, as compensation, approximately \$50,000.

Mr. Tawney considered himself vindicated when the house unanimously, and amid loud and continuous applause, gave him permission to print the reply in the Congressional Record.

The Man From Brodney's

By GEORGE BARR
M'GUTHCHEON

Copyright, 1908, by Dodd, Mead & Co.

—growing almost the creaking and straining of the rope, the creaking of his hands and body. She opened her eyes and saw the bulky, swaying shadow not twenty feet above the garden. Slowly it drew nearer the grass covered floor, foot by foot, straining, struggling, gasping in the final supreme effort, and then with a sudden rush the black mass collapsed, the taut rope spring loose, the end swinging and leaping violently.

Genevra rushed frantically across the garden, half fearful, half joyous. As she came up the mass lay on the ground, the other stood limply to the ground, the other stood erect for a second and then dropped beside the prostrate, gasping figure.

Chase had come down the rope with another human being clinging to his body!

Genevra fell to her knees beside the man who had accomplished this miracle. She grasped his hands, warm and sticky with blood. She tried to lift his head from the ground, mounting with pity all the time, uttering words of encouragement in his ear.

Many minutes passed. At last Chase gave over gasping and began to breathe regularly, but heavily. The strain had been tremendous. Only supernatural strength and will had carried him through the ordeal. He groaned with pain as the two ladies lifted him to a sitting posture.

"Tell Selma to come ahead!" he gasped, his bloody hand at his throat. "We're all right!"

Then, for the first time, Genevra peered in the darkness at the figure beside her—a slight, graceful woman in lifted her face to the heights from which she had descended. In a shrill, eager voice she called out something in a language strange to the princess. A faint shout came from on high, and once more the rope began to writhe.

The princess passed her hand over her eyes, bewildered. The face of the woman in the light, half shaded, half illumined, was gloriously beautiful—youth, dark, brilliant!

"Oh!" she exclaimed, starting to her feet, a look of understanding coming into her eyes. This was one of the Persians! He had saved her! A feeling of revulsion swept over her, combating the first natural, womanly pride in the deed of a brave man.

She saw the struggle, weakly figure before him and, putting out his hand, said:

"She is Selma's wife. I am stronger than he, so I brought her down." Then, looking upward anxiously, he shouted:

"Be careful, Selma! It's easy if you take your time to it."

Indiana Man Slain In Arkansas Courtroom

Murderer Fires Over Head of Senator Davis in Attack on Nathaniel P. Willis.

Little Rock, Ark., July 28.—Nearly 100 spectators were thrown into a panic today yesterday afternoon when Nathaniel Parker Willis of Indianapolis was murdered in the circuit courtroom by W. Y. Ellis of Pine Bluff. The first shot at Willis was fired over the head of United States Senator Jeff Davis.

The shooting was the tragic ending of a lawsuit brought by Willis against his divorced wife, who had subsequently married Ellis, for the possession of his child. Willis died in the arms of his mother who was waiting across the room and rushed towards him as he fell in the hallway outside of the courtroom.

Willis obtained his divorce several years ago and started the litigation for the possession of the child.

He obtained an order from Circuit Judge Falk Monday to take possession of the child, who has been for the past ten days in the custody of an uncle at Pine Bluff, and the parties to the suit met in the courtroom yesterday to decide where the child was to be delivered. Ellis, who is a nephew of John F. Butterfield, a millionaire lumberman of Pine Bluff, appeared for his wife, the former Mrs. Willis, and Senator Davis represented Willis.

While Judge Falk was seated at a table in the courtroom discussing with Senator Davis the conditions of the transfer of the child, Ellis pulled a revolver from his pocket and fired point blank at Willis, who was seated across the table. A court attendant struck his arm, just as the weapon was discharged and the bullet was embedded in the wall.

Willis ran around the table with Ellis close at his heels. The latter rested his pistol against the door jamb, just as Willis ran out, and fired a second time. Willis fell to the floor, dying, clasped in his mother's arms. Sheriff Roberts seized Ellis, pulling him into an ante-room to prevent any further shooting. The surrendered his pistol to Judge Falk and was at once taken to jail.

Crop Cash Breaks Record.

Washington, July 28.—The government, assisted by the national banks, will at once issue \$220,000,000 in bills of one and five-dollar denominations to aid the annual crop movement. This is the largest issue ever made for the purpose and argues well for the crop returns of 1909.

Lawson's Daughter Causes Arrest.

Lawson, Ill., July 28.—Mrs. Frances Connelley of Lake Forest, daughter of Thomas W. Lawson of Boston, saw W. A. Atkinson, a teamster, beating a horse so cruelly that it lost an eye. Being a member of a humane society she had him arrested. He was fined \$25 and costs.

The only toasted cornflakes made exclusively from yellow corn are "Vello" cornflakes. The kind with the rich corn flavor. Try them. You'll not give back to the old kind.

REPORTS SHOW PROSPERITY.

Building and Loan Associations Thrive Despite Financial Depression.

Philadelphia, July 28.—That the local building and loan associations have not suffered appreciably during the period of financial depression was shown by the report of Secretary H. F. Callahan of Cincinnati, to the annual convention of the United States League of such associations here today. The figures for 1908 continue to show a marked increase in the membership and the total income, as well as an increase in the total number of associations. According to the present report, there are 5,599 local building and loan associations in the United States, with a total membership of 1,500,811, and assets amounting to \$775,665,000. This is an increase in membership over last year of 63,602 and an increase for the year, in assets of \$14,156,562.

DAILY DIET HINTS

THE BANANA.

The banana contains all the elements necessary to perfect food nutrition, and that in proportion closely approximating milk. It is, when properly ripened, easily digested and one of the best monodiet, especially in stomach and intestinal disorders. In which fasting is "contraindicated." The smallness of the fruit, being undeveloped, should not be eaten, nor any while any part is green or deep yellow. Cooking converts the starch into sugar, making it more easily digested, but spoiling largely the other food elements. Banana flour is made from green banana, and while superior to wheat flour, is inferior to the ripened banana eaten in its natural state.

A Delicious, Nourishing Meal for 5 Cents

YOU don't believe it, do you? Here it is: Take two SHREDDED WHEAT BISCUITS; heat them in the oven to restore crispness, pour hot

milk over them; add a little cream and salt to suit the taste.

Or, if you don't like milk, try it this way: Heat two Biscuits in oven to restore crispness; then dip them quickly in salt water, place a piece of butter on the Biscuit, allowing it to melt into the shreds.

Or, heat the Biscuits in oven, dip them in milk, drain, and fry in butter, after which they may be served with a little cream, if desired.

A little fruit makes the meal even more wholesome and adds little to the cost. Try one of these tomorrow.

Shredded Wheat is made of the choicest selected white wheat, cleaned, steam-cooked and baked. Try it for breakfast tomorrow with milk or cream. The Biscuit is also delicious for any meal in combination with fresh or preserved fruits.
